## PRACTICE

- Development of full-stack web applications, desktop, and mobile applications
- Advanced knowledge in HTML5, CSS3, Javascript, Typescript, React, and Next.js for two years
- One-year experience in C#, .NET, Java, Python, and Php
- Several years of practice in designing, creating, and overseeing databases

## EXPERIENCE

2019 – PRESENT

**TRACK FOREMAN**, HUNGARIAN STATE RAILWAYS

Oversees and coordinates teams of 4-6 personnel in the construction, maintenance, and repairs of railway track across the entire Hungarian railway system since 2022. Receives daily work orders, and coordinates with them on the management and delegation of each task.

2008 – 2013

**VIDEO EDITOR**, INDAVIDEO.HU

Editor of a Hungarian video sharing site and online newspaper, "Index". Worked closely with the Senior Editor and reported to them on all major decisions. Conducted the editing and cutting of online videos of the corresponding story. Provided occasional assistance with the filming of content for the stories.

2005 – 2006

**BAKER**, ALDREDS THE BAKERS

Reported directly to the Head Baker and worked with a team of 20-30 people, 9h/day, 6 days a week. Prepared buns, rolls, and breads, making them presentable. Maintained a clean and tidy workplace.

2001 – 2004

**SYSTEM ADMINISTRATOR**, HUNGARIAN STATE TREASURY

Managed and supervised a network of 300 computers. Performed duties as part of a 6-person team. Maintained and repaired the computer software and hardware of multiple departments within the treasury. Conducted a mass installation of the Oracle database across numerous institutions.
